

Accessibility Plan

At The Parkland Federation, we strive for excellence in all that we do while promoting optimum health, happiness and wellbeing within our school community. Learning is exciting, inclusive, dynamic and challenging. The highest standards of behaviour are promoted at all times. Here, the children are supported to succeed through taking risks and learning from mistakes. Pupils are prepared to become responsible, informed, respectful and creative global citizens who will contribute with insight, understanding, and compassion to the diverse and rapidly changing world they live in. *(School Vision Statement updated September 2021)*.

This Accessibility Plan has been drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a prescribed period.

- 1. We are committed to providing an accessible environment which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.
- 2. The Parkland Federation plans, over time, to ensure the accessibility of provision for all pupils, staff and visitors to the school.
- 3. An Accessibility Plan will be drawn up to cover a three year period. The plan will be updated annually. The Accessibility Plan will contain relevant actions to:
- ★ Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- ★ Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils; (If a school fails to do this they are in breach of the DDA). This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- ★ Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables, books and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.
- 4. The Action Plan for physical accessibility relates to the Access Audit of the School, which is undertaken regularly. The audit will need to be revisited annually in order to update the plan for the following period.

5. The School's complaints procedure covers the Accessibility Plan.

To help draw-up an Accessibility Plan, the following is carried out:

- \star An audit of the accessibility of the building. This will help identify and prioritise access issues around the physical environment. It will also suggest strategies for achieving these targets that can be reflected in a revised accessibility plan and shared with the local authority. Support in carrying out an audit is also available from the Index for Inclusion (CSIE) www.inclusion.org.uk or Inclusion Quality Mark www.publicsectormatters.com
- ★ Develop staff awareness and understanding of disability discrimination, access issues and the promotion of disability equality. Support, advice and training on these issues can be sought from a number of services within the local authority and voluntary and community groups, including the School Improvement Service, Equalities officers, Special Educational Needs Team, Psychology and Learning team, East Sussex Disability Association and the DARE foundation (Disability and Rehabilitation Education).
- \star The school is aware of the access needs of disabled children, staff and parents/carers. The school begins by ensuring the information needs of existing disabled pupils are being met. It then goes on to consider what it would need to respond to the needs of future disabled pupils. It also remembers to consider the access needs of staff and parents/carers. Surveys for all stakeholders should help to inform this plan.

Improving Access to the Physical Environment
